

# DO YOU HAVE LOW VISION OR BLINDNESS?

## About the study

Researchers at The Smith-Kettlewell Eye Research Institute in San Francisco are investigating improving **navigational** abilities in **low-vision** and **blindness rehabilitation training**

Participants are compensated from **\$20-\$30.00/hour** and travel/parking reimbursement

## Do you qualify?

- Between the ages 18-80
- Diagnosed low-vision or blind
- Right hand dominant
- No metal implants, pacemakers, or tattoos
- No formal training in art
- Full COVID immunization

## Want to learn more?

If you or someone you know would like further information or are interested in participating, please call **(415) 793-0823** or send an email to:

[michael.liang@ski.org](mailto:michael.liang@ski.org)

## Participation involves

- Being trained to draw map layouts without vision over **5 days for 2 hours per day**
- fMRI brain activity, virtual reality navigation, and sensory/cognitive/memory performance will be measured **before & after** the training
